Imagine having a way to remove family hassles coping with today's teenagers. After all, many of us have no idea where our sons and daughters are, much less what they are up to.

Here is a way to keep them going, to show that you care, and solve the problem of dealing with the next generation.

Our Way

Purchase a stress relief package. In return for your investment we will provide a tool to locate your son or daughter once a week, provide them with a living allowance to keep them out of trouble and reach them about managing investments.

Give them a purpose, keep them out of trouble and keep in the loop at the same time.

And we will pay you non-compounding interest on your funds for five years. At that time, you get your funds returned.

It's simple. And it takes the stress out of being a parent of modern teenagers,

We also give you're a similar phone. Every time the system is accessed we tell you where and when it was accessed, to the accuracy of cellphone service information. So, you can find out if they are in Chicago or Guildford or Zimbabwe.

And of course, you also have a number to call.

We have investment courses on how to make money in the New Economy. We give the cellphone user play money to learn to play the investment game. Once they have worked out the rules of the games, we allow them to invest their allowance into real investments.
